

Summer Internship 2017

Job Description

Are you looking for a great start to your professional career? Ready to demonstrate that you have the skills to succeed?

We are currently looking for highly motivated individuals to work as part of one of our departments during few weeks long Summer Internship.

The intern will be responsible for providing accurate and timely financial data to Thomson Reuters products.

Responsibilities:

- Maintenance of data quality, accuracy, timeliness and completeness for European Markets
- Use appropriate language skills to understand and source financial information for the markets
- Ensure timely and complete resolution of queries from internal and external clients
- Support employees on their projects – they may differ depending on the team you will join

Qualifications

Requirements:

- Advanced in English
- Pursuing University level education (Preferably 3, 4 or 5th Year)
- Attention to detail, ability to learn quickly
- Good communication skills and ability to work effectively in a team

Benefits of the Internship to the successful candidate:

- Training and access to Thomson Reuters Products
- Extensive use of your language skills
- Work in a multicultural environment and liaise closely with colleagues in different locations
- Soft skills trainings, networking opportunities
- Ability to participate in Thomson Reuters spots program (discounts at many cultural & leisure venues)
